	Create Communication System.	5
	Create Communication Arrangement.	6
3.2	Finance Customizing.	6
4	Appendix.	9
4.1	Ticket Component.	9

1 Purpose

This document describes additional configuration steps that you must perform in the productive system at the customer's site. As these configuration steps are company-specific, they cannot be delivered by SAP, and must be carried out by the company setting up the SAP solution.

Caution

This setup instructions guide is only for **Germany**. If you are implementing *Accounting and Financial Close* (J58) for another country, do not execute the instructions in this guide.

2 Preparation

2.1 Required Information

During the activities described in this guide, you must enter or provide system-specific information. To ensure a smooth and efficient integration to SAP S/4HANA Cloud Public Edition, we recommend that you have the information listed in the table below at hand before starting the integration process.

Type of Information Required	Your Data
SAP BTP system	Make a note of the tenant (TMN) URL
SAP BTP system	Make a note of the user and password
ELSTER Certificates for SAP Cloud Integration	Obtain this from the ELSTER Online Portal, or use existing certificates
SAP S/4HANA Cloud Public Edition system	

2.2 Prerequisites

2.2.1 SAP Integration Suite

This integration package enables you to transfer German tax-specific notifications to the authority. The following notifications are supported: **UStVA**.

For the transfer, the integration package applies specific requirements for message security, which are set by the German authorities. Therefore, the integration package uses the mandatory ERIC Libraries. The functionality is valid for German customers only.

Before you start with the activities described in this document, ensure that the following prerequisites are met:

- SAP Integration Suite
 - For more information, see the [Initial Setup of SAP Cloud Integration in the Neo Environment](#)
 - The `AuthGroup.Administrator` role is required
- For your tenant, copy the **SAP Finance Applications Integration with ELSTER** to your package and configure it for your system
 - For more information on this, follow the Implementation Guide (How to Set Up the CPI Tenant) included with the SAP BTP package
- Deploy the certificates for SAP Cloud Integration

3 Configuration

The following sections describe all settings required for this scope item. These can be divided into the following main groups:

- Communication arrangement set-up
- Configuration using the self-service configuration user interface (SSCUI) - either via the Manage Your Solution app or the project experience in SAP Central Business Configuration

3.1 Communication Arrangement

The following communication arrangements must be activated in SAP S/4HANA for communication with web services, depending on the integration functionalities you want to use.

Communication Arrangement ID	Communication Arrangement Name
SAP_COM_0645	Finance - ELSTER Integration

Note

If you are using SAP Integration in the Cloud Foundry environment, you must set up secure inbound communication using client certificates. For more information, see [Cloud Integration on CF – How to Set Up Secure HTTP Inbound Connection with Client Certificates](#) .

3.1.1 Create Communication System

Purpose

In this activity, you create the communication system.

Prerequisites

To carry out the following activity, you need a business user with a business role that contains the business catalog SAP_CORE_BC_COM (Communication Management). For example, you can use a user with the same minimum

authorizations as the `SAP_BR_ADMINISTRATOR` (Administrator) business role template. You also need to create a user in Cloud Integration and assign the `ESBMessaging.send` role. More information can be found in the documentation in [Defining Permissions for senders to Process Messages on the Runtime Node](#).

Procedure

1. Log on to the SAP S/4HANA Cloud Public Edition system as an [Administrator](#).
2. From the SAP Fiori launchpad, open [Communication Systems](#).
3. To create a system, choose [New](#).
4. Enter a system ID and system name.
5. Choose [Create](#).
6. In the [Technical Data](#) section, enter the information regarding the system you wish to integrate.
7. Under [Users for Outbound Communication](#), add your user or certificate.
8. Choose [Save](#).

3.1.2 Create Communication Arrangement

Procedure

1. Log on to the SAP S/4HANA Cloud Public Edition system as an [Administrator](#).
2. From the SAP Fiori launchpad, open [Communication Arrangements](#).
3. To create a communication arrangement, choose [New](#).
4. Select [SAP_COM_0645 \(Finance - ELSTER Integration\)](#).
5. Adapt the [Arrangement Name](#) if required, then choose [Create](#).
6. In the [Common Data](#) section, select the [Communication System](#) from the input help. This is the communication system you created in the [Create Communication System \[page 5\]](#) topic. The technical user is automatically added to the [Outbound Communication](#) section.
7. Choose [Save](#). The communication arrangement is activated.

3.2 Finance Customizing

Purpose

In this activity, you make the settings for electronic communication with authorities.

Procedure - Settings for Electronic Communication with Authorities

1. Depending on your configuration environment for SAP S/4HANA Cloud Public Edition, choose one of the following options:
 - **Configure Your Solution:**

Log on to the SAP Fiori Launchpad in the SAP S/4HANA Cloud Public Edition system as a Configuration Expert - Business Process Configuration (SAP_BR_BPC_EXPERT).

Navigate to [Manage your Solution](#). Choose [Set Local Version](#). Select **Germany** from the dropdown and choose [Set Local Version](#).

Choose [Configure Your Solution](#). On the [Configure Your Solution: Realize Phase](#) screen, filter the list using the following values:

 - [Application Area](#): **Finance**
 - [Sub Application Area](#): **Statutory Reporting**

In the [Configuration Item](#) area, click the following entry: [Electronic Communication](#).

In the [Configure Your Solution: Electronic Communication](#) screen area, choose the [Configuration Steps](#) tab. Search for [Make Settings for Electronic Communication with Authorities](#) and choose [Configure](#).
 - **SAP Central Business Configuration:**

Log on to the project experience in SAP Central Business Configuration.

Go to the [Business Processes Configuration](#) app and search for the following activity: [Make Settings for Electronic Communication with Authorities](#).

Choose the line item in the search result to see more details about this configuration activity.

Choose the [Go to Activity](#) button to navigate directly to the SAP S/4HANA Cloud Public Edition system. Log on to the SAP Fiori launchpad as a Configuration Expert - Business Process Configuration (SAP_BR_BPC_EXPERT).
2. In the [Make Settings for Electronic Communication with Authorities](#) (103726) row, choose [Configure](#).
3. On the [Change View "Settings Electronic Data Transmission": Overview](#) view, make the following entries:
[Return Type](#): **1 Electronic Advance Return for Tax on Sales/Purchases**
[BCXI](#): **CP Cloud Platform Integration** (do this for the 1010/DE row)
4. Save your changes.

Procedure - Parameters for Electronic Communication with Authorities

1. Depending on your configuration environment for SAP S/4HANA Cloud Public Edition, choose one of the following options:
 - **Configure Your Solution:**

Log on to the SAP Fiori Launchpad in the SAP S/4HANA Cloud Public Edition system as a Configuration Expert - Business Process Configuration (SAP_BR_BPC_EXPERT).

Navigate to [Manage your Solution](#). Choose [Set Local Version](#). Select **Germany** from the dropdown and choose [Set Local Version](#).

Choose [Configure Your Solution](#). On the [Configure Your Solution: Realize Phase](#) screen, filter the list using the following values:

 - [Application Area](#): **Finance**
 - [Sub Application Area](#): **Statutory Reporting**

In the [Configuration Item](#) area, click the following entry: [Electronic Communication](#).

In the [Configure Your Solution: Electronic Communication](#) screen area, choose the [Configuration Steps](#) tab.

Search for *Define Parameters for Electronic Communication with Authorities* and choose *Configure*.

- **SAP Central Business Configuration:**

Log on to the project experience in SAP Central Business Configuration.

Go to the *Business Processes Configuration* app and search for the following activity: *Define Parameters for Electronic Communication with Authorities*.

Choose the line item in the search result to see more details about this configuration activity.

Choose the *Go to Activity* button to navigate directly to the SAP S/4HANA Cloud Public Edition system. Log on to the SAP Fiori launchpad as a Configuration Expert - Business Process Configuration (SAP_BR_BPC_EXPERT).

2. On the *Determine Work Area: Entry* dialog box, make the following entries and choose *Continue*:
Return Type: **1 Electronic Advance Return for Tax on Sales/Purchases**
Dominant Enterprise/Company Code: **1010**
Country of Reporting Authority: **DE**
3. On the *Change View "Parameter Values Electronic Data Transmission": Overview* view, make the following entries:
Finanzamtsnummer: **<value>**
Digitale Signature Key Store Entry: **<value>** (this is from the tenant setup referenced in the *Required Information [page 4]* section)
Name der Kontaktperson: **<name of contact>**
Ort der Kontaktperson: **<place of contact>**
PLZ der Kontaktperson: **<postal code of contact>**
Straße der Kontaktperson: **<street name for contact>**
Elster-Steuernummer des Steuerpflichtigen: **<taxpayer number>**
4. Save your changes.

4 Appendix

4.1 Ticket Component

If you encounter issues during configuration, open an SAP support ticket for the following component:

Implementation Type	Component	Comment
All	FI-GL-GL-F

Videos Hosted on External Platforms

Some videos may point to third-party video hosting platforms. SAP cannot guarantee the future availability of videos stored on these platforms. Furthermore, any advertisements or other content hosted on these platforms (for example, suggested videos or by navigating to other videos hosted on the same site), are not within the control or responsibility of SAP.

Beta and Other Experimental Features

Experimental features are not part of the officially delivered scope that SAP guarantees for future releases. This means that experimental features may be changed by SAP at any time for any reason without notice. Experimental features are not for productive use. You may not demonstrate, test, examine, evaluate or otherwise use the experimental features in a live operating environment or with data that has not been sufficiently backed up.

The purpose of experimental features is to get feedback early on, allowing customers and partners to influence the future product accordingly. By providing your feedback (e.g. in the SAP Community), you accept that intellectual property rights of the contributions or derivative works shall remain the exclusive property of SAP.

Example Code

Any software coding and/or code snippets are examples. They are not for productive use. The example code is only intended to better explain and visualize the syntax and phrasing rules. SAP does not warrant the correctness and completeness of the example code. SAP shall not be liable for errors or damages caused by the use of example code unless damages have been caused by SAP's gross negligence or willful misconduct.

Bias-Free Language

SAP supports a culture of diversity and inclusion. Whenever possible, we use unbiased language in our documentation to refer to people of all cultures, ethnicities, genders, and abilities.
