Setting Up *Machine Learning for Monitoring of Goods and Invoice Receipts* **(2ZS)**

© 2026 SAP SE or an SAP affiliate company. All rights reserved.

Content

1 **Purpose** 3

2 **Prerequisites** 4

1 Purpose

This document describes additional configuration steps that customers must carry out to activate SAP GR/IR Account Reconciliation Status Proposals Integration.

Since these configuration steps are customer-specific, they cannot be delivered by SAP, and must be carried out by the customer.

The machine learning service used for reconciling goods and invoice receipt (GR/IR) accounts is a cloud service that uses machine learning technology to enable a thorough and dynamic observation of the reconciliation of GR/IR accounts providing recommendations for further processing.

2 Prerequisites

MANDATORY: The *Monitoring of Goods and Invoice Receipts* (2V7) and *Machine Learning for Monitoring of Goods and Invoice Receipts* (2ZS) scope items must both be active.

If the scope item is not active, request activation via SAP support ticket on component `XX-S4C-OPR-SRV`. Create a ticket using the *SAP Support Launchpad*.

SAP managed communication scenario SAP GR/IR Account Reconciliation Status Proposals Integration (`SAP_COM_1042`) must be active. Request the activation via SAP support ticket on component `XX-S4C-OPR-SRV`.

Important Disclaimers and Legal Information

Hyperlinks

Some links are classified by an icon and/or a mouseover text. These links provide additional information.
About the icons:

Videos Hosted on External Platforms

Some videos may point to third-party video hosting platforms. SAP cannot guarantee the future availability of videos stored on these platforms. Furthermore, any advertisements or other content hosted on these platforms (for example, suggested videos or by navigating to other videos hosted on the same site), are not within the control or responsibility of SAP.

Beta and Other Experimental Features

Experimental features are not part of the officially delivered scope that SAP guarantees for future releases. This means that experimental features may be changed by SAP at any time for any reason without notice. Experimental features are not for productive use. You may not demonstrate, test, examine, evaluate or otherwise use the experimental features in a live operating environment or with data that has not been sufficiently backed up.
The purpose of experimental features is to get feedback early on, allowing customers and partners to influence the future product accordingly. By providing your feedback (e.g. in the SAP Community), you accept that intellectual property rights of the contributions or derivative works shall remain the exclusive property of SAP.

Example Code

Any software coding and/or code snippets are examples. They are not for productive use. The example code is only intended to better explain and visualize the syntax and phrasing rules. SAP does not warrant the correctness and completeness of the example code. SAP shall not be liable for errors or damages caused by the use of example code unless damages have been caused by SAP's gross negligence or willful misconduct.

Bias-Free Language

SAP supports a culture of diversity and inclusion. Whenever possible, we use unbiased language in our documentation to refer to people of all cultures, ethnicities, genders, and abilities.
