1 Purpose

This document describes additional configuration steps that you must perform in the productive system at the customer site if you want to activate the outbound services for China-specific third-party payment integration functions for bank receipt requesting described in the *Accounts Receivable* (J59) scope item. As these configuration steps are company-specific, they cannot be delivered by SAP, and must be performed by the company setting up the SAP solution.

> ⚠ Caution
>
> This setup instructions guide is only relevant for China (CN). If you are not implementing the solution for this country, do not process the instructions in this guide.

2 Preparation

2.1 Required Information

During the activities described in this guide, you will be required to enter or provide system-specific information. To ensure a smooth and efficient integration to SAP S/4HANA Cloud Private Edition, we recommend that you have the information listed in the table below at hand before starting the integration process.

Type of Information Required	Your Data
SAML local identity provider certificate of Jam instance	Recommendation: Create a zip file
SAML local identity provider issuer of certificate of Jam instance	
Communication user ID starting with CC	
SAP S/4HANA Cloud Public Edition system	

2.2 Prerequisites

2.2.1 SAP Cloud Connector for Integration with On-Premise Systems

Setting Up Integration with On-Premise Systems (including SAP S/4HANA Cloud Private Edition)

For all scenarios integrating SAP S/4HANA Cloud Public Edition with SAP On-Premise scenarios, the *SAP_COM_0574 - SAP BTP Connectivity Service - On Premise Integration* communication arrangement must be activated. This is a prerequisite for all other communication arrangements.

To check if the *SAP_COM_0574 - SAP BTP Connectivity Service - On Premise Integration* communication arrangement is active in your system, go to the *Communication Arrangements* app. If it is not active, you must set it up.

To set up the communication scenario, follow the procedure under Integrating On-Premise Systems.

3 Configuration

The following sections describe all settings required for this scope item. These can be divided into the following main groups:

- Communication arrangement set-up
- Configuration using the self-service configuration user interface (SSCUI) via the *Manage Your Solution* app or the project experience in SAP Central Business Configuration

4 Communication Arrangement

The following communication arrangements must be activated in SAP S/4HANAfor communication with web services.

Communication Arrangement ID	Name of Communication Arrangement
SAP_COM_0554	Finance - Third-party's Communication Client Integration

4.1 Create Communication System

Prerequisite

To perform the following activity, a business user with a business role must exist. The business role must contain the business catalog SAP_CORE_BC_COM (Communication Management), for example, the business role *SAP_BR_ADMINISTRATOR* (Administrator).

Procedure

1. Log on to the SAP Fiori launchpad in the SAP S/4HANA Cloud Public Edition system.
2. Open *Communication Systems*.
3. Choose *New* to create a system.
4. Enter a system ID and a system name and choose *Create*.
5. In the *Technical Data* section, enter *Host Name* and *Port* for the system you want to integrate.
6. Open *Cloud Connector* if required.
7. In the *Users for Outbound Communication* section, add an outbound user by selecting *Authentication Method :* **`User Name and Password`** (for a user with access to the system maintained in *Technical Data* section).
8. Choose*Save*.

4.2 Create Communication Arrangement

Procedure

1. Log on to the SAP Fiori launchpad in the SAP S/4HANA Cloud Public Edition system.
2. Open *Communication Arrangements.*
3. Choose *New* to create a communication arrangement.
4. Select *SAP_COM_0554 (Finance - Third-party's Communication Client Integration)*.
5. Adapt the *Arrangement Name* if required.
6. Choose *Create*.
7. In the *Common Data* section, select the *Communication System* from the input help that was created in the Create Communication System [page 6] section. The outbound communication user that was maintained in the communication system shall be automatically added to the *Outbound Communication* section.
8. Activate services to be used in *Outbound Services* section, and enter the *Path* and *Port* accordingly.
9. Choose *Save*. The communication arrangement has been activated.

5 Configuration Items

Prerequisites

To perform the following activity, a business user with a business role must exist. The business role must contain the business catalog SAP_CORE_BC_COM (Communication Management), for example, the business role SAP_BR_ADMINISTRATOR (Administrator) is required. Additionally, the business role SAP_BR_BPC_EXPERT must be assigned to the user.

Procedure

Depending on your configuration environment for SAP S/4HANA Cloud Public Edition, choose one of the following options:

Configure Your Solution:

1. Log on to the SAP Fiori launchpad as a Configuration Expert - Business Process Configuration.
2. Open *Manage Your Solution*.
3. If necessary, change the country or region by choosing *Set Local Version*.
4. Choose *Configure Your Solution*.
5. Search for **`Activate Services for Data Exchange`**.
6. For the *Activate Services for Data Exchange* row, choose *Configure*.
7. Continue with the following procedure.

SAP Central Business Configuration:

1. Log on to the project experience in SAP Central Business Configuration.
2. Go to the *Business Processes Configuration* app. To locate the activity in the tree view, search for the following activity: *Activate Services for Data Exchange*.
3. Choose *Open Documentation* for the found line item to see more details about this configuration activity.
4. Choose the link to navigate directly to the SAP S/4HANA Cloud Public Edition system. Log on to the SAP Fiori launchpad as a Configuration Expert - Business Process Configuration.
5. Continue with the procedure in the following table.

Procedure

1. For the relevant company code, house bank, and account ID level rows, select the *Request Bank Receipts* checkboxes.
2. Save your entries.

6 Appendix

6.1 Ticket Component

In case of issues during the configuration, open an SAP support ticket for the following component.

Implementation Step	Component	Comment
All	FI-LOC-EPI-CN

Videos Hosted on External Platforms

Some videos may point to third-party video hosting platforms. SAP cannot guarantee the future availability of videos stored on these platforms. Furthermore, any advertisements or other content hosted on these platforms (for example, suggested videos or by navigating to other videos hosted on the same site), are not within the control or responsibility of SAP.

Beta and Other Experimental Features

Experimental features are not part of the officially delivered scope that SAP guarantees for future releases. This means that experimental features may be changed by SAP at any time for any reason without notice. Experimental features are not for productive use. You may not demonstrate, test, examine, evaluate or otherwise use the experimental features in a live operating environment or with data that has not been sufficiently backed up.
The purpose of experimental features is to get feedback early on, allowing customers and partners to influence the future product accordingly. By providing your feedback (e.g. in the SAP Community), you accept that intellectual property rights of the contributions or derivative works shall remain the exclusive property of SAP.

Example Code

Any software coding and/or code snippets are examples. They are not for productive use. The example code is only intended to better explain and visualize the syntax and phrasing rules. SAP does not warrant the correctness and completeness of the example code. SAP shall not be liable for errors or damages caused by the use of example code unless damages have been caused by SAP's gross negligence or willful misconduct.

Bias-Free Language

SAP supports a culture of diversity and inclusion. Whenever possible, we use unbiased language in our documentation to refer to people of all cultures, ethnicities, genders, and abilities.
